ASSUNTO: Radioactive salt.

January 9th, 1947.

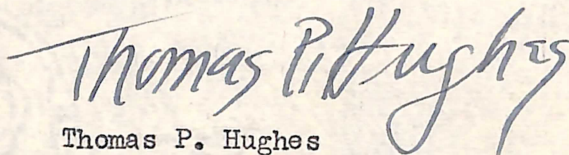

Dear Doctor Santos,

Doctor Kumm has asked me to reply to your letter of December 17th, 1946.

I am extremely sorry that at the moment we have no radioactive sodium nor any radioactive mosquitoes. We have previously secured our radioactive salt from Professor Carlos Chagas who is, unfortunately, at present in Europe. As soon as he returns we will ask him to provide us with a small supply and will then be able to send you the material that you require.

I am very sorry about this delay but until the return of Professor Chagas there seems to be nothing which we can do about it.

Sincerely yours,

Thomas P. Hughes
