Professor Gleb Wataghin
Departamento de Fisica
Universidade de São Paulo
São Paulo, Brasil

Dear Professor Wataghin:

We would be very glad to have Dr. Lattes come to Berkley for a year as a Rockefeller Fellow. At the present time, the Radiation Laboratory is operating under the auspices of the Atomic Energy Commission and, therefore, it is necessary to obtain formal permission from the Atomic Energy Commission for a non-citizen to work in the Laboratory. The procedure is to make application through your Washington Embassy directly to the Commission.

I do hope that such permission will be received, as we would be very glad to have Dr. Lattes with us. His published work is very interesting and I am sure there would be much for him to do here especially in collaboration with Dr. Gardner.

With all good wishes,
Very cordially,

Ernest O. Lawrence
