

February, 28 , 1948.

Dear Prof. Harrison Brown

I should be very interested to know your results concerning the new abundances curve for nuclei (Bulletin of the American Physical Soc., January 29, 1948, v.23, number 2, p.10) and would be grateful to you if you could send me a copy of your publication. We were working on the statistical theory of this distribution for many years and recently published some papers on this subject. (Phys. Rev. January 1st., 1948, p.79 - Comptes Rendues, February 1948). I shall be glad to send to you the reprints as soon as I get them.

With many thanks,

Yours Truly

---

Gleb Wataghin
