

Professor L. Jánosy
Dublin Institute for Advanced Studies
School of Cosmic Physics
5, Merrion Sq.,
Dublin, Ireland

São Paulo, March 18, 1949

Dear Professor Jánosy,

in the absence of Professor G. Wataghin, now at the Istituto di Fisica della Università di Torino, we send you the reprints you asked for. In addition we inclose a copy of our note on the nature of mesons in penetrating showers, which is scheduled to appear in the Physical Review on March 1.

On the other hand we would appreciate very much if you could send us regularly reprints of your publications, since we receive, here in Brazil, only a restricted number of scientific journals.

Sincerely yours

H.A. Meyer

G. Schwachheim

Andrea Wataghin
