Research Institute  
Central Meteorological Observatory  
Tokyo Japan

Dear Sir,

As we are highly interested in the problem of cosmic radiation under ground we would appreciate if you could send us a reprint or a copy of the manuscript by Prof. Tomonaga and yourself relative to this problem, whose resume appeared in the Physical Review of June 15, 1949. You mentioned that you would publish more details in a paper to appear in the Progress of Theoretical Physics.

We would be grateful to you could send the above mentioned paper by air mail, since ordinary mail would take several months to reach us.

Please send to the address  
George Schwachheim  
Rua Oscar Freire 1972  
São Paulo Brasil

With our best thanks, sincerely yours,

---

H.A. Meyer
