

COPIA

Lidingö, 3 Juli 1950

Herrn  
Prof. Dr. Lattes  
21 Rua Alvares Alvim  
Rio de Janeiro

Dear Professor Lattes,

In completion to my last letter I am sending you another Beurteilung through Professor Leithauser of Berlin. For further reference I gave you the name of Dr. Albrecht (10 Belgravia Ave., Box Hill North E 12, Melbourne) who was my chief after 1946 and is presently furthering his research in Australia.

As I wrote you, Herr Professor, in my last letter, I would like next to work in an Industrial laboratory or for a Behordenstelle until it is possible to work in your Institute.

A basic question still has to be made clear. It was my belief that I could travel (fly) through the International Help Organization to overseas countries. In this case if one wished to live in these countries. This is, however, not the case, as I learned. But it is impossible for me to pay the trip to Rio. In this case I would like to go over there to Rio by plane. My family could come a month later by ship. Please, if you will, see if the firms or Behordenstelle where I would work, could afford to finance my trip there. I hope that one will do this without further ceremony.

With respectful greetings,  
Your humble,

H.H. Klinger
