

Professor D. Bohm
Evelyn Place, 1
Princeton, N.J.
U.S.A.

Dear professor Bohm

I have received the letter by which you informed me that you accepted your indication to assume the chair of Theoretical and Mathematical Physics of our Physics Department.

Therefore I made the indication of your name to that chair, as approved by my colleagues of the Physics Department. I am happy to inform you that this proposal has just been unanimously approved by the "Congregação" of our Faculty.

However, this decision has yet to be approved by the "Conselho Universitário" of the University of São Paulo and finally by the Governor of the State. In such cases as this one the referred authorities usually confirm the decision of the "Congregação". This will probably take about one month. I shall let you know of any such decisions as soon as possible.

I understand that the Director of our Faculty, Professor E. Simões de Paula, is sending you a communication of the decision of the "Congregação" where no reference was made to these further steps. I hope that his letter will help you to get your passport and the visa.

I look forward to the opportunity of seeing you here in a near future.

Very sincerely yours

Abrahão de Moraes
Diretor do Departamento de Física

Prof. Abrahão de Moraes
Departamento de Física
Faculdade de Filosofia, Ciências
e Letras, U.S.P.
R. Maria Antônia, 310-4º andar
