Professor D. Bohm
Princeton University
Princeton, N.J.

Dear professor Bohm

I received a letter from professor Shens-
tone and another from professor Einstein, both with very
good references to you.

Professor Einstein referred to possible
difficulties concerning your passport and suggested that
an official information from our University or Government
to the State Department, referring to urgency of your pre-
sence here, would be helpful.

I am doing my best on this respect, but
for questions of red tape it may take some time. If a
letter of mine to the State Department would be oportune,
I could send it as soon as your let me know.

Anyway I am sending to you a letter that
you may present the State Department if you find it con-
venient.

I would be glad to have news of you.

Schutzer and Thomno sent best wishes to
you.

Very sincerely yours

Abrahão de Moraes
