Professor Abrahao de Moraes  
Departamento de Fisica  
Faculdade de Filosofia, Ciencias e Letras  
R. Maria Antonia, 310  
Sao Paulo, Brazil

Dear Professor Moraes:

Professor Einstein has shown me your recent letter to him in which you ask for further confirming recommendations for Dr. David Bohm. Professor Einstein has written you fairly fully stating his confidence in Dr. Bohm, both as a scientist and as a man, and I would like to add my corroboration of those sentiments. Certainly as a member of this department Dr. Bohm showed himself to be an excellent colleague in every way. His scientific ability is beyond question, and his skill in directing the work of graduate students is outstanding. We are even more aware of this since he left than we were before.

If your letter implies that there is any difficulty regarding the position of Dr. Bohm on your faculty, I can only say that I find it very difficult to understand how any criticism of Dr. Bohm could create such a situation. I have the greatest confidence in his judgment.

Yours very sincerely,

A. G. Shenstone  
Chairman
