Marchant Calculating Machine Company
Oakland, California, U.S.A.

Dear Sirs,

In the instructions of our Marchant calculating machine,
Model ACTM, I read that special Marchant Methods for handling
special problems are available for the asking.

I wold appreciate if you could send to me the Marchant
methods for (a) Statistics (correlations, deviations, lest squa-
res) and (b) Basic Mathematics (Square,Cube and higher roots; Direct
and Inverse Straigth Line and Curvilinear Interpolation; Differen-
cing)

With best regards
