Dear President Dr. Jorge Americano:

I was sorry that I could not return to São Paulo after our scientific conferences were over at Rio de Janeiro. I wanted to tell you personally how much the hospitality and cooperation of your university has meant to us in carrying on our cosmic ray studies in Brazil. This opportunity for collaboration with your scientific men has greatly encouraged our own expedition. We hope that we may be able to give tangible form to our thanks by giving some comparable help to your own capable scientists as they may want to have studies done in our country.

Yours most sincerely

(ass.) Arthur H. Compton.
