Rio de Janeiro, Brazil  
South America

Dear Dr. Ribeiro:

I have received your letter of October 3 in regard to the stenographer's reports of our meetings. We are busily preparing the material of our addresses for final publication, and it may be possible that we can send those in the near future together with the stonegraphic reports which you ask for. In case there is too much delay, however, in our final reports, I shall send you copies of the original notes.

All our friends have been very much interested in our glowing accounts of Brazil and of the hospitality which we received there. I am sure you are likely to have an influx of scientific expeditions encouraged by these reports.

With very best regards, I am

Sincerely yours,

(a) - William P. Jesse
