December, 28th, 1941.

Dear Prof. Compton,

I wish to you and your Family a happy New Year.

To day I am sending to you the manuscript of a part of the discussion of the Symposium in Rio de Janeiro, containing some of yours and my remark. I should be grateful if you could give your opinion on the publication of these remarks in the volume of our Symposium or eventually criticise and add some words to them.

With the nest airmail I shall send to you the theoretical discussion of some point mentioned in this manuscript. A copy of this maunscript I am sending also to Hilberry and to Jesse.

With best thanks

Yours sincerely

E-22
