Dear Rasetti ,

The physicists of S. Paulo are all delighted to know that you are coming . Thank you for your telegram .

In order to facilitate the reservation on one of the airlines from Canada to Brazil the Director of our Faculty , Dr. André Dreyfus discussed the question with the Ambassador of Canada, Dr. J. Desy , who happened to be in S. Paulo during this week . The Ambassador is willing to get for you priority and to pay the trip from Canada to Brazil on a special plane which goes directly from Canada to Rio de Janeiro ( every fortnight , I understand ) . The Ambassador promised to cable to you as soon as he gets the reservation .

If this attempt fails or if you prefer to travel making your own reservation on the PANAIR Comp. , I beg you let us know by telegram and we shall send immediately to you thousand dollars by cable for travel expences. The Authorities of our University authorised me to inform you that they are paying your travel expences in both ways. and your living expences in Brazil . We asked the Ambassador to arrange your arrival here before June 15 or 20.

Many thanks and best wishes

Sincerely

Gleb Wataghin
