Dear Professor Kaddoura,

I am very glad to receive your invitation. I was travelling abroad in India, Japan and Switzerland and I am back to Brazil only now. I accept your invitation to be member of the Consultive Committee and I am studying the possibility of writing a paper on Bohr's ideas on 'Complementarity'. Unfortunately I was in my travel and I cannot fix a date to send you this paper; I HAVE MANY ideas on this subject but I HAVE not find yet bibliographical references. I WILL write you soon.

I WILL be glad to get the program of the commemoration and to KNOW THE DATES WHEN I must be present.

LOOKING FORWARD TO RECEIVING NEWS FROM YOU

YOURS SINCERELY

(REFLEXIONS ON Bohr and COMPLEMENTARITY)
