

UNIVERSIDADE DE SÃO PAULO
Faculdade de Filosofia, Ciências e Letras
CAIXA POSTAL, 8105
São Paulo

São Paulo, August 22, 1956.

Dear Professor Yukawa:

This is to let you know that through the Japanese residents here in São Paulo, the Department of Physics of the "Faculdade de Filosofia, Ciências e Letras" of the University of São Paulo, of which I am director, has been informed, with great pleasure, of the invitation you received to come to Brazil.

Unfortunately, your letter on this respect arrived very late, when no arrangements could possibly be made to suit your conveniences.

However, it is of great interest to this Department as well as to the Nacional Research Council, that you should come and visit us any time you wish, even for a short period. We would certainly be very glad for this opportunity of establishing contact with the Japanese Physics.

I may advance that Professor Leite Lopes, of the Nacional Research Council, who is planning to attend the Congress to be held in Seattle, is looking forward to meet you there, when he will have the happy opportunity to make an official invitation to you. I wish to add, in the quality of Director of the Department of Physics, that your visit will be most welcome.

Very truly yours,

Mario Schenberg
Director of the Department of
Physics
