Dear Professor Salam

At the time of your visit to Brasil we discussed the possibility of Mr. Jorge Leal Ferreira going to the Imperial College to work with you and eventually to work on his Ph.D.

This is to inform you that he is now eager to leave to England and it is my opinion that Mr. Leal Ferreira is apt for research work, as he is sufficiently prepared now in the field of theoretical physics.

Thanking you in anticipation for your kind attention,  
I remain

Truly yours,
