

M. de J. 6 I. P.

OBSERVATORIO DE CORDOBA

Córdoba - Argentina

Córdoba, november 10 , 1947.

Dear Prof. Schönberg :

We have just received the first volume of Zeitschrift für Naturforschungen which appears since 1946, published by Dieterich'sche Verlagsbuchhandlung, Wiesbaden, American Zone, Germany. Since 1947 it appears in two sections a) Physics and Physical-Chemistry, and b) Chemistry and Biology.

In this first volume are several papers by Prof. Fritz Bopp (Kaiser Wilhelm Institut für Physik, Hechingen) which, we think, may interest you. So we send you the abstracts of ~~these~~ ^{are} papers. They deal about electron electodynamics and related with your own work in this field.

It is easy to get subscription and back numbers of Z. f. N. if these are addressed to

Mrs. Katherine Galbraith
450 Riverside Drive
New York 27 / New York.

Kind regards from Prof. Beck.

Very sincerely yours

Damián Canals Frau
