Professor Mario Schenberg  
Rua Sao Vicente de Paula 50<sup>1</sup>  
Ap. 105  
Sao Paulo  
Brazil

Dear Professor Schenberg,

On his return from the recent trip to Brazil, Professor Pekeris discussed with me your plans of establishing a School in Geophysics at Sao Paulo University.

Before I could make any decision about the appointment, I would like to have some more information concerning the subject:

- (i) the proposed number of faculty members in the School of Geophysics,
- (ii) the degree for which the students will be working and the background which they will have in Applied Mathematics,
- (iii) the computing facilities available,
- (iv) the possibility that the appointment may be made for a limited period of time.

I will be grateful to receive the above information. Please send a brochure of the University, or some other published material which may enlighten me about the Sao Paulo University in general and the departments of Applied Mathematics and Physics in particular.

Very truly yours,

Dr. Sarva Jit Singh
