Dear Professor Schonberg,

I write you for asking ^{the} a reprints,
if some one is yet available, of some of your olds articles
published on brasilian journals that I was not able to find
in the libraries of may county and of some neighbouring ones
(Switzerland, France).

The articles that interest me are the following ones

"Anaies da Acad. Bras. Ciênc." 28, 11, 1956

" " " " " 28, ? , 1956

(On the Cliffors and Grassmann algebras, I and II).

"Summa Brasiliensis physicae" I, 51, 1947.

"Revista Brasileira de Fisica" 1, 91, 1971,

and any other paper published on brasilian journals.

I am working from some year on the subject you have treated in
these papers that you quoted in the article presented to the
Max Planck Festchrift.

With my best regards,

Enzo Tonti
