Dear Dr.

Receive from part of the World Cultural Council congratulations for your careful labour in the scientific-academic field, that through several years of continuous effort and work has permitted to place you in the category that you deserve and this Council confirms.

In the last plenary session it has been considered your nomination, since you gather the sufficient merits to distinguish you as Member of the interdisciplinary Committee of Honorary Presidents.

This nomination means that you will form part of the committee that will designate the world prizes of Science that this Council grants. Furthermore it does not bring any obligation that could absorb your valuable time.

We make propitious the occasion to salute you very cordially, renewing the testimony of our most distinguished consideration and wishes for exit in your labour.

Cordially yours,

DR. ESTEBAN MESZAROS WILD
GENERAL SECRETARY
