ON HIGH ENERGY PHYSICS

Kiev 15-25 July, 1959

PLENARY SESSION I- V

Moscow 1960

insignificant in  $\Lambda$ -nucleon interactions. This result does not agree with that of Spitzer concerning the great role of three-particle forces in  $\Lambda$ -nucleon interactions, but is in agreement with recent calculations by Bach.

#### CONTENTS

|  |     |
|--|-----|
| Opening session .....  | 3   |
| G. B e r n a r d i n i. Pion photoproduction<br>and compton-effect on nucleons .....   | 13  |
| Discussion .....   | 72  |
| B. P o n t e c o r v o. Pion-nucleon scatte -<br>ring and single pion production in nucleon-<br>nucleon and pion-nucleon interaction ..... | 83  |
| Discussion .....   | 162 |
| E. S e g r é. Antinucleons and their inte-<br>ractions .....   | 179 |
| Discussion .....   | 203 |
| V.I. V e k s l e r. Nucleon-nucleon and<br>pion-nucleon interaction .....  | 211 |
| Discussion .....   | 262 |
| Ja. A. Smorodinsky. Nucleon-nucleon<br>scattering .....  | 271 |
| Discussion .....   | 298 |
| G.F. C h e w. Theory of strong coupling of<br>ordinary particles .....   | 313 |
| Discussion .....   | 338 |
| R. H o f s t a d t e r. On nucleon structure   | 355 |
| Discussion .....   | 375 |
| W.K.H. Pa n o f s k y. Electromagnetic in-<br>teraction and nucleon structure .....  | 378 |
| Discussion .....   | 403 |
| L.L. S h i f f. Nucleon structure and elect-<br>romagnetic interaction theory .....  | 410 |
| Discussion .....   | 436 |
| J. S t e i n b e r g e r. Strange particle<br>production .....   | 443 |
| Discussion .....   | 450 |
| L.W. Al v a r e z. The interaction of strange<br>particles .....   | 471 |
| Discussion .....   | 527 |
| A. S a l a m. Strange particle theory .....  | 540 |
| Discussion .....   | 577 |
| R.H.D a l i t z. Hyperfragments and hyperon-<br>nucleon interaction .....  | 587 |
